Gujarat Mineral Development Corporation to spend Rs 300 crore to revamp 250MW Kutch power plant

AHMEDABAD: State-run Gujarat Mineral Development Corporation (GMDC) will invest Rs 300 crore to maximize power generation at its 250MW Akrimota (Kutch) power plant.

The plant has been an underperformer for the last 16 years and has one of the cheapest power purchase agreements (PPA) with GUVNL due to this. The state government has allowed capital pass-through to GMDC and the company will start the procedure for a revised PPA at around Rs 3.20 per unit.

GMDC managing director Roopwant Singh said, "We have a total of 250MW (2x125) power generation capacity at Akrimota in Lakhpat taluka of Kutch, but the plant load factor (PLF) is only 37% and it has been under performing for the last 16 years. We made a representation to the state government to refurbish the plant and the state government has allowed capital pass-through. We will refurbish the plant in the next fiscal (2023-24) and will achieve 75%-85% PLF. We will invest Rs 300 crore to increase utilization of this installed capacity." He added that GMDC is one of the cheapest power suppliers to GUVNL, and with the plant reaching at least 200MW of power generation, GUVNL will get more electricity at cheaper prices.

The Akrimota power plant uses lignite and was an ambitious forward integration

BSF nabs 3 Pak fishermen from Kutch creek

Ahmedabad: The Border Security Force (BSF) on Wednesday apprehended three Pakistani fishermen from a creek area near the India-Pakistan border off the Kutch district coast in Gujarat and seized their boat. The fishermen were inside the Indian territory of Sir Creek, the BSF said in a statement. They were identified as Sayed Gulam Murtaja (65), Bashir Zavad (60) and Akbar Ali Abdul Gani (54), all residents of Karachi. They told BSF officials that they inadvertently entered as the engine malfunctioned, the statement said.

India must speed up shift to renewable energy generation

The Ukraine war, the severe heating shortage, and the high energy cost as winter grips Europe have provided new urgency to the shift to green, renewable energy (RE). A recent International Energy Agency (IEA) report predicts the world is expected to build as much renewable capacity in the next five years as it added in the last two decades. The IEA forecasts 2,400 gigawatts (GW) of renewable power will be added worldwide—equal to China's entire capacity today. Remarkably, over the next five years, 2022–2027, 90% of the energy capacity added will be renewable. However, India's progress has been tardy. The Modi government had set a target of 500 GW of renewable energy by 2030. We are generating about 120 GW of 'green' energy, accounting for about 29% of the total installed power capacity. The IEA points out we are way below target—India is slated to add only 145 GW by 2030, or about 29 GW in annual installations. The on-ground performance is even worse—only about 13–15 GW is coming into the grid yearly. The IEA says the slow growth of RE power is because of the slowdown in auction awards for solar, wind and hydropower. Among the main stumbling blocks are the state electricity distribution companies (discoms), which cannot sign power purchase agreements (PPAs) with the green generation companies because of their weak financial status.

Gujarat Budget balanced with a key focus on infra - Gulam Zia

Ahmedabad: "The Gujarat state budget was finely balanced with a key focus on infra, rural-urban connectivity. It was fiscally prudent with no new taxes imposed on the citizens this year. The state has grown to be known as an industrial and manufacturing hub. It needs tremendous investment in this direction for future growth. Rs 5 lakh crore for the development of infra facilities along with a new airport at Dwarka, high-speed corridors, and gram sadak yojana in the state over the next five years will not only improve connectivity, create business opportunities and a large number of jobs.

Rs 18,000 crore for the Ahmedabad Metro Phase-II, and Rs 76 crore for GIFT city will help conceptualise infra of global standards. Rs 1,066 crore under PMAY (U) will help the availability of affordable homes, a step towards the 'Housing for all' program of the government". (1-7)
