(dixitpatrakar@yahoo.in)

Ahmedabad, The world homeopathy day is celebrated each year on April 10. Homeopathy is one of the most popular medical systems in India. This day is celebrated to honor the birth of the father of the Homeopathy system of medicines, Dr. Samuel Hahnemann. Born in Paris, France, he was a German physician, who was an acclaimed scientist, a great scholar, and a linguist. He discovered the way to heal through the use of homeopathy. He died on July 2, 1843. Homeopathy is an alternative medical practice in which extremely dilute amounts of certain natural substances are used to treat various ailments.

The homeopathy medicine was discovered by Dr. Samuel Hahnemann who was a great scientist and a physician. He experimented on

himself. He started studying the effects of cinchona drug. He did a self-application to understand about the effects. After the study, he concluded that the cinchona drug can induce malaria-like symptoms in a healthy human body, and gave the alternate system of medicines Homeopathy. According to homeopathy 'similiasimilibuscureantur' i.e. likes can cure likes. The homeopathic medical system is a recognized medical system in India under the Homeopathy Central Council Act, 1973. It is also recognized as one of the national systems of medicines. The active ingredients used in homeopathy are plant, animal or mineral-based. Commonly used ingredients are fresh or dried herbs, activated charcoal, vinegar, garlic, caffeine and stinging nettle plants. The active ingredients from these substances are extracted in specific ways and processed into tablets, ointments, gels and drops.

Homeopaths say they aim to treat the whole person, taking into account personality, lifestyle and hereditary factors, as well as the history of the disease. One of the main guiding principles of homeopathy is that the treatments must be highly individualised. It depends on the person's specific

symptoms, medical and lifestyle history and lastly, body parameters. For instance, if two people are getting treatment for the same illness, they can receive totally different treatments from their homeopathic doctors because of their unique requirements and assessment of how their bodies are expected to respond. Since all people are unique, homeopathic medicines are prescribed to treat individuals. Homeopathy is effective for a wide range of ailments such as colds, flu, arthritis, allergies and sprains. Homeopaths say they aim to name just a few of the maladies for which there are homeopathic treatments for. Homeopathy has effective, constitutional medicines for allergies. This means that a remedy is chosen considering the totality of the symptoms the person is experiencing. This requires the guidance

and expertise of a professional homeopath, and a detailed consultation is necessary to embark on this method of treatment. Homeopathic medicines are not based on specific antibody or germ-fighting cell formation and are not an acceptable alternative to conventional vaccines. It is important to be remembered that Homeopathy is an alternative medicine based on the theory of treating 'like with like'. Homeopathy claims to stimulate healing responses to diseases by administering substances that mimic the symptoms of those diseases in healthy people. The effectiveness of homeopathic preparations is disputed within medical science. One should never stop taking conventional drugs without the knowledge and approval of your doctor. ## Skill varsity's drone school to give training for rural, farming children

Ahmedabad : In an attempt to tap the demand for drones in agriculture sector, the newly established Kaushalya - The Skill University (KSU) has established its School of Drones to provide a range of skill development programmes for encompassing the entire drone value-chain, from drone flying skills to assembly and maintenance, value added services such as data analysis, AI application among others.

"The school of drones will also facilitate training of trainers, research, innovation, incubation and entrepreneurship to foster start-ups in drones and allied technology, the university has come up with the concept of 'trainer entrepreneurs'. Preparing a road map for five years, the university has held deliberations with stakeholders including civil aviation, flying schools, drone federations, drone start-ups and industries. Nearly 20,000 children from rural background and wards of farmers will be given preference in admission. They will be trained over a period of five years. This is being done looking at the huge scope of drones in agriculture right from spraying of fertilisers of sowing," said Anju

Sharma, principal secretary, Department of Labour, Skill Development and Employment. KSU is an official associated with the development said. Using the infrastructure of the university, these trainers whose remuneration will be linked to their performance, will be paid by the state government through university in case of free or subsidised training. More the trainees, the more the trainers earn with the university fixing the rates.

The state government also plans to take initiatives for development of human

resources in other fields also, in view of the likely expansion of the drone sector and its extensive application for improving governance and achieving transformational changes in the fields of agriculture, policing, defence, and mining. KSU has entered memorandum of understanding with the Indian Farmers Fertiliser Cooperative Drone Federation of India, Agriculture Skill Council of India, Electronics Sector Skill Council of India, Aerospace and Aviation Sector Skill Council, Telecom Sector Skill Council and IT-TES Sector Skill Council.

## Over 120 million tonnes of cargo transported through Gujarat waterways in past five years

Ahmedabad : Over 120 million tonnes of cargo have been transported through national waterways in Gujarat in last five years, accounting for 34 per cent of the total cargo movement through inland water transport in the country. Out of the 111 national waterways identified under the National Waterways Act 2016, 26 were found viable for cargo and passenger movements which included National Waterway 73 on Narmada river and National Water Way 100 on Tapi river. According to data tabled in Lok Sabha earlier this month, in Gujarat, cargo movement through national waterways began in 2017-18 when 11.52 million tonnes of cargo was transported. In 2020-21, the cargo

transportation reached 25.72 million tonnes and till February 28, 2022, 26.68 metric tonne had been clocked for financial year 2021-22. In Gujarat, the bulk of the cargo movement is happening through the Tapi river. Of the 25.72 million metric tonne of cargo transported in 2020-21, 25.6 million metric tonnes was conducted through Tapi and only 0.2, 311 metric tonnes happened through Narmada.

## Gujarat: 11 booked for 'torturing' nurse, 'abetting' her suicide

Ahmedabad : Days after a staff nurse at Mansa Civil Hospital in Gandhinagar allegedly died by suicide at her residence, police booked 11 of her in-laws for allegedly torturing her and abetting the crime, taking into account a handwritten note by the woman. According to police, the body of nurse Bhumi Chavda (29), a resident of Raj Bungalows in Mansa, was found under mysterious circumstances by a few neighbors of the society. Bhumi is the younger sister of Hardevsinh Chavda, a head constable with sector 21

police station in Gandhinagar, and was married to Rahul Dabhi. The couple had two daughters aged two and three years. "On March 31 night, my brother-in-law Rahul called me and said that he was away from home and Bhumi was not attending calls. Later, when Rahul asked a neighbour to check his house, when they found Bhumi hanging in one of the rooms," said Hardevsinh in his complaint. "After she was rushed to civil hospital in Mansa, doctors declared her BIPC

dead. On April 1, I found a suicide note written by Bhumi in which she has named 11 of her in-laws, excluding her husband Rahul, for mentally and physically torturing her," he added. Taking cognisance, police have booked 11 accused, including the parents of Rahul Dabhi, under IPC sections 306 for abetment to suicide and 498a for cruelty against a woman. According to police, the body of nurse Bhumi Chavda (29), a resident of Raj Bungalows in Mansa, was found under mysterious circumstances by a few neighbors of the society.

## Statue of Unity Assistant Commissioner suspended over 'remarks against tribals'

Vadodra : The Gujarat Revenue Department on Sunday suspended Nilesheb Dube, Assistant Commissioner of the Statue of Unity (SoU), and directed him to remain at the dispensation of the Bhavnagar District Collector during the period of suspension. The order comes just two days after a controversy broke out over an audio clip allegedly from a conversation between Dube and an officer of the Central Industrial Security Force (CISF), in which Dube was heard making 'derogatory' remarks against the tribal community.

The order from the

Revenue Department on Sunday said that Dube, an Assistant Commissioner of the Sardar Sarovar Varanashah Agency (SSA), is a Class 1 officer of the Revenue Department and has been handed additional charge at Statue of Unity since December 7, 2018. "During his duty at SoU, NR Dube has made uncalculated comments against a specific community of the state, as per news reports. The comments made by NR Dube are hurtful to the sentiments of the community and unbecoming of a Class-1 officer, who is expected to be responsible," a circular read issued by the department states. "Following the incident, it has been decided that a disciplinary action will be initiated against NR Dube... It has been decided to suspend the officer until the completion of the inquiry in the matter," it further said. The decision, the

circular states, has been taken in accordance with Section 5(1)(a) of the Gujarat Civil Services (Discipline and Appeal) Rules, 1971. The order also states that Dube will need to seek explicitly written permission for leaving Bhavnagar. "In case the officer needs to go out of Bhavnagar for seven or more days, it is mandatory for him to intimate his address and contact details of the location to the officer-in-charge," the circular added. The order also states that the suspension will remain in force until explicitly revoked by another subsequent order.

## THIS WORLD HEALTH DAY FOCUS ON FINANCIAL HEALTH

social well-being and not merely the absence of disease and infirmity." Certainly, one of the overlooked aspects in this definition is financial health. They say money cannot buy happiness but that does not mean your finances cannot affect your wellbeing. Poorly managed finances invite stress and anxiety which have a crippling effect on your mental and physical well-being, hence affecting your overall health. Keeping this in perspective, This World Health Day, Mr. Vinit Kapahi, Head of Marketing, Aviva India said "The last two years were no less than a rollercoaster for every one of us. We all saw something unexpected and recognized the importance of good health. But what does the word 'health' mean? According to the World Health Organization, the term 'health' is described as a 'state of complete physical, mental, and
