Bank of India (BOI) inked an MoU with REC Limited to collaboratively investigate the potential for financing projects in industries including power, infrastructure, and logistics under a consortium arrangement. Over the next few years, BOI and REC will work together to co-finance loans totalling Rs 30,000 crore. Bank of India is a Public Sector Bank and doing banking Business including funding infrastructure projects across the country with a worldwide presence.

The infrastructure continues to be the focus to push the economic growth rates in India. The financial institutions such as India Infrastructure Finance Company Ltd (IIFFCL), Rural Electrification Corporation (REC), Bank of India, and others that have been investing in the different infrastructure sectors and the projections about infrastructure sector by CRISIL. It also provides a quick snapshot of the major happenings in sectors like aviation, energy storage, roads, metros and others across the country.

Founded in 1906, BOI has

made rapid growth over the years and blossomed into a mighty institution with a strong national presence and sizable international operations. In business volume, the Bank occupies a premier position among the nationalized banks and has a Global Gross Business of over Rs. 12.14 Lakh Crore.

Shri T.S.C. Bosh, Executive Director (Infra & Logistics), REC and Shri Nitin G. Deshpande, CSM, BOI signed the MoU in the presence of Shri Vivek Kumar Dewangan, CMD, REC, Shri Rajneesh Karnatak, MD & CEO, BOI, Shri Ajoy Choudhury, Director (Finance), REC and other senior officials from REC and BOI. Under the Ministry of Power, REC Limited, 12th Maharashtra CMF founded in 1969, offers long-term loans and other finance products for the Power Infrastructure segments, which include Generation, Transmission, Distribution, Renewable Energy, and New Technologies like Green Hydrogen, Electric Vehicles, and Battery Storage. In recent times, REC has expanded its business to include Non-Power Infrastructure, which includes

transportation infrastructure such as roads and motorways, metro rail, airports, IT communication, social and commercial infrastructure (hospitals, educational institutions), ports, and electro-mechanical works associated with different industries like steel and refineries. REC has more than Rs 4,54,393 crore in loans on file. Earlier REC signed deals to finance two green hydrogen, and a thermal project worth Rs 40,000 crore. REC signed an MoU with Odisha Power Generation Corporation (OPGC) to finance Rs 9,538 crore for development of two units of a thermal power project in Jharsuguda, Odisha. Under a partnership with Acme Group, REC will provide a funding of Rs 16,000 crore for a green hydrogen and ammonia facility proposed at Gopalpur in the state.

There is no doubt that the collaboration between BOI & REC will contribute significantly to the state's power generation capacity and energy infrastructure. (B-15 Jyoti-Kalash Society, Jodhpur Tekra Satellite, Ahmedabad - 380 015)

Max Life Launches Smart Total Elite Protection Term Plan

Ahmedabad, Max Life Insurance Company Ltd. ("Max Life"/"Company"), has announced the launch of Smart Total Elite Protection Plan (UIN - 104N125V01), a comprehensive life insurance term plan crafted for today's lifestyles, providing comprehensive coverage, tailored to evolving consumer preferences. A non-linked, non-participating, individual pure-risk premium life insurance plan, Max Life Smart Total Elite Protection Term Plan ("STEP") offers policyholders multiple enhanced benefits like Instant Payment on Claim Intimation, Cover Continuation Benefit and Special Exit Value. This plan aims to enhance financial security in today's landscape, addressing the modern consumer's need for increased protection through higher coverage solutions.

As India experiences a surge in aspirations and a

noticeable shift in consumer preferences towards premium products and services, 3 out of 5 Indians express concerns about sustaining their lifestyle and expenses with current earnings (Max Life IPQ 5.0 survey). This trend is also reflected in the growing demand for higher coverage solutions amongst consumers to safeguard the well-being of their families. For instance, more than one-third of Max Life's customers have chosen a term plan with a coverage of INR 2 crores this year, compared to one-fourth in the previous year. In this context, STEP emerges as a vital solution. The offering inherently builds for an enhanced coverage of INR 2 crores keeping in line with the growing financial needs of consumers while introducing options for flexibility such as enabling policyholders to take a premium break every five years as part of its cover continuation benefit. Go Nisha Go Wins 'Best Serious Game' at the Gala2023

Ahmedabad, Go Nisha Go, a mobile game designed with and for adolescent girls in India, was

named "Best Serious Game" at the Gala2023 Serious Games competition in Dublin, Ireland. Led by Howard Delfield International (HDI), was created by the USAID-funded Game of

Coca Cola to invest Rs 3,000 crore to set up plant in Sanand

GANDHINAGAR: American multinational beverage manufacturer The Coca Cola Company (TCCC) will invest Rs 3,000 crore to set up a beverage bases and bottling plant in Sanand situated 22km from Ahmedabad. The foreign direct investment (FDI) will be made by the company through International Refreshments (India) Private Limited (IRPL), part of TCCC. Sources in the state government confirmed that a plot of land (SM-52) measuring 1.6 lakh square metre has been allotted to the company to establish the plant in Sanand Industrial Estate-II.

"Coca Cola has already made two large investments through its bottling partners in Gujarat. The government has fast tracked the process of approvals and has already made land allotment to the company," senior officials in the state administration said. The company already has a facility in Gandhinagar, through 33km from Ahmedabad, through its bottling partner - Hindustan Coca Cola Beverages Limited, in addition to another one at Sanand. The two facilities were established with a cumulative investment of \$180 million. Government sources

said that the plant will be fully automated using robotic technology. The facility will be enabled with Internet of Things (IoT) and machine-learning technology enabled devices to enable real-time monitoring and control of manufacturing processes. It will also have automated storage and retrieval systems. During the construction phase, a workforce of about 1,000 persons - both skilled and unskilled - will be employed by the company. When operational, the plant will have a workforce of about 400 persons in operational and engineering

roles, with an emphasis on gender diversity.

When operational, the plant will have a workforce of about 400 persons in operational and engineering roles, with an emphasis on gender diversity.

"The beverages major has created several employment opportunities through at least two lakh retailers and direct and indirect jobs for 1,000 persons in Gujarat thus far," said a source. The new plant is expected to give a boost to ancillary industries such as packaging suppliers, flavour producers, engineering services, capital goods, and automation sectors, sources in the government said.

ASCI and the Unstereotype Alliance Unveil Study on Diversity & Inclusion

Ahmedabad, The Advertising Standards Council of India (ASCI) and the UN Women convened Unstereotype Alliance (UA), launched their collaborative study on Diversity and Inclusion (D&I) in Indian advertising. The report, prepared by Kantar, a global brand research partner to the world's leading companies, deep dives into a critical component of ESG (environmental, social and governance) goals of corporates. The study was unveiled at the DEI Edge Summit, co-hosted by ASCI and UA, and supported by organisations such as Diageo, HUL and Disney Star.

Manisha Kapoor, CEO and Secretary-General, ASCI, said, "There is no doubt that advertising shapes society. Indian advertising is missing the Diverse and inclusive narratives that can provide a realistic picture of the Indian consumer. The Unstereotype Alliance and other partners, ASCI would like to nudge and support the advertising industry in getting its DEI representation right. The opportunity to include diverse perspectives and stories is a powerful one, and the event showcases the immense benefits both brands and society can derive from such progressive inclusions." Hiten Bhuta: Bridging Ancient Wisdom and Modern Science for Today's World

Ahmedabad, Hiten Bhuta stands out as a visionary, bringing the ancient teachings of Adi Shankaracharya into the 21st century with a unique approach. His work, which includes conducting 121 in-depth study sessions, is a testament to his commitment to reviving these timeless teachings. What sets Bhuta apart is his ability to intertwine these ancient philosophies with modern scientific concepts from neuroscience and quantum physics, making them more understandable and relevant to a contemporary audience.

Atma Shatakam Series: A Journey Beyond Physical Existence - In his Atma Shatakam series, Bhuta offers practical steps to help individuals experience their

existence beyond the physical body. He suggests that many of our health, family, social, and global issues stem from the belief that we are solely our bodies. By recognizing our true nature beyond physical constraints, Bhuta argues, we can achieve a sense of liberation.

Atma Bodhi: Understanding the Infinite Self - The Atma Bodhi series, comprising 68 verses, delves into the profound nature of the human self. Bhuta describes this as a space of creation, where we are not confined to a fixed identity or physical form. Instead, we are part of a vast, infinite existence. Through this series, Bhuta shares steps to bridge the gap between our essence and the practical steps to help individuals experience their

Presstonic Engineering plans to raise up to Rs. 23.30 crore from IPO

Ahmedabad, Presstonic Engineering Ltd engaged in the manufacturing of Metro Rail Rolling Stock, Metro Rail Signalling, and Infrastructure plans to raise Rs. 23.30 crore from its SME public issue. 15 YOUTHS FROM FIVE COUNTRIES TRIUMPHED AT YOUNG SOCIAL ENTREPRENEURS

Ahmedabad, Six social enterprise teams from five countries emerged as winners at this year's Young Social Entrepreneurs (YSE) Global Programme organised by the Singapore International Foundation (SIF). The teams were represented by 15 youths from China, India, Indonesia, Laos, and Singapore. Ms Mahdiyiah Ardhina, a member of Rumah Briket and YSE 2023 participant from Indonesia said: "YSE Global has been an intensive boot camp for our team as we are still new in our business. We thank our mentors for their experience and input. They have been invaluable these past few months. They imparted

critical knowledge based on years of professional experience and provided fresh perspectives on our business plans." Rumah Briket created a zero-waste solution that processes organic and non-organic waste and converts it into charcoal briquettes and paving blocks. They presented the strongest business ideas that addressed social and environmental causes including mental health services, water conservation, the provision of skills and technology for underserved communities, and women empowerment. The YSE Global Programme also enjoyed the highest level of mentorship support in its 14-year history. (19-10)
