Exciting space missions slated for launch in 2024

2023 proved to be an important one for space missions, with NASA's OSIRIS-REx mission returning a sample from an asteroid and India's Chandrayaan-3 mission exploring the lunar south pole. Here's a look at how 2024 is shaping up to be another exciting year for space exploration

VIPER ON MOON

VIPER, which stands for

Volatiles Investigating Polar

Exploration Rover, is a robot

NASA will use to explore the

Moon's south pole in late 2024

This robotic mission is

designed to search for

volatiles, which are

vaporise, like water

and CO₂, at lunar

temperatures

delivery to the lunar surface is

scheduled for November 2024

VIPER's launch and

the size of a golf cart that

EUROPA CLIPPER

NASA will launch Europa Clipper, which will explore one of Jupiter's largest moons, Europa

With Europa Clipper, scientists want to investigate whether Europa's ocean could be a suitable habitat for extraterrestrial life

The mission plans to do this by flying past Europa nearly 50 times to study the

moon's icy shell, its surface's geology and subsurface ocean

The launch window—the period when the mission could launch and achieve its planned route—opens on October 10, 2024, and lasts 21 days. The spacecraft will arrive at the Jupiter system in 2030

ARTEMIS II LAUNCH

The Artemis programme will send humans to the Moon for the first time since 1972, including the first woman and the first person of colour

Artemis II will put astronauts into orbit around the Moon before returning them home. It is currently planned for launch as early as November 2024

ESA'S HERA MISSION

Hera is a mission by the European Space Agency (ESA) to return to the Didymos-Dimorphos asteroid system that NASA's DART mission visited in 2022

But DART didn't just visit these asteroids, it collided with one of them to test a planetary defense technique called "kinetic impact." DART hit Dimorphos with such force that it actually changed its orbit

Hera will launch in October 2024, making its way in late 2026 to Didymos and Dimorphos, where it will study the physical properties of asteroids

Israel, Gaza end dark year, with no end in sight to war

DEIR AL-BALAH

ISRAELI strikes in central Gaza killed at least 35 people on Sunday, hospital officials said, as fighting raged across the tiny enclave a day after Israel's PM said the war will continue for "many more months."

Benjamin Netanyahu stressed that "the war will continue for many months until Hamas is eliminated and the

hostages are returned." "We will guarantee that Gaza will no longer pose a threat to

Israel," he said on Saturday. On Sunday, he vowed, "We will continue our defensive war, the justice and morality of

which is without peer." The military said Israeli forces were operating in Gaza's second-largest city, Khan Younis, and residents reported

strikes in the central region. In the area of Zweida in central Gaza, an Israeli airstrike killed at least 13 people and

bodies were draped in white plastic and laid out in front of a hospital, where prayers were held before burial.

Officials from Al-Aqsa Hospital in central Deir al-Balah said the 13 were among 35 bodies received on Sunday.

The Israeli military said it was battling militants in Khan Younis, where Israel believes Hamas leaders are hiding. It also said its forces operating in the urban Shati refugee camp, in northern Gaza, found a bomb in a kindergarten and defused it. Hamas continued to launch rockets toward south-

Israel expanded its offensive to central Gaza this week, targeting a belt of dense, built-up communities that house refugees from the war surrounding Israel's creation in 1948 and their descendants. The fighting has pushed much of the population south, where people have flooded shelters and tent camps wounded dozens of others. The near Egypt border. Agencies

US Navy sinks three boats of Houthi rebels

Centcom terms it self defence; several insurgents killed in firing by Navy helicopters; one boat manages to flee

BEIRUT

THE US military said on Sunday that its forces opened fire on Houthi rebels after they attacked a cargo ship in the Red Sea, killing several of them.

The US Central Command (Centcom) said the crew of the USS Gravely destroyer first shot down two anti-ship ballistic missiles fired at the Singapore-flagged Maersk Hangzhou late on Saturday, after the vessel reported getting hit by a missile earlier that evening as it sailed through the Southern Red Sea.

Four small boats then attacked the same cargo ship with small arms fire early Sunday and rebels tried to board the vessel, the US Navy said.

Next, the USS Gravely and helicopters from the USS Dwight D. Eisenhower aircraft carrier responded to the Maersk Hangzhou's distress call and issued verbal warnings to the attackers, who responded by firing on the helicopters.

"The US Navy helicopters returned fire in self-defence," sinking three of the four boats and killing the people on board while the fourth boat fled the

area, the US Central Command said. No damage to US personnel or any equipment was

There was no immediate comment from the Houthis.

The Denmark-based shipping giant Maersk, owner of Maersk Hangzhou, said on Sunday that it would suspend shipping through the Red Sea again after the two attacks on its freighter.

"In light of the (most recent) incident—and to give time to investigate the details of the incident and assess the security situation further—it has been decided that all transits through the area will be postponed for the next 48 hours," Maersk was quoted as saying by the Danish

public broadcaster DR.

The events surrounding the Maersk Hangzhou represented the 23rd illegal attack by the Houthis on international shipping since November 19, the Central Command said. It was the first time the US Navy said its personnel had killed Houthi fighters since the Red Sea attacks started.

For over a month, Houthis have claimed attacks on ships in the Red Sea that they say are either linked to Israel or heading to Israeli ports. They say their attacks aim to end Israeli offensive in the Gaza Strip. AP

Kim vows to launch three spy satellites in 2024

SEOUL

NORTH Korean leader Kim Jong Un vowed to launch three military spy satellites, produce more nuclear materials and introduce attack drones in 2024, as he called for "overwhelming" war readiness to cope with USled confrontational moves.

He set forth plans to launch three more military spy satel-

lites next year in addition to the country's first reconnaissance satellite launched in November. He underscored the need to establish "a reliable foundation" to build more nuclear weapons. Kim also ordered authorities to enhance submarine capabilities and develop various types of unmanned combat equipment such as armed drones. Kim said "vicious" anti-North Korea moves by the US and its followers "have reached the extremes unprecedented in history," pushing the Korean Peninsula to the brink of a nuclear war, according to KCNA. Kim cited the expansion of US-South Korean military exercises and the temporary deployment of powerful US military assets such as bombers and a nuclear-armed submarine in South Korea. AP

Belgorod revenge: Russia hits military facilities in Ukraine

KYIV

RUSSIA launched a fresh drone assault on Ukraine on Saturday night, after promising that strikes on the Russian border city of Belgorod earlier in the day "would not go unpunished." The Ukrainian Air Force said on Sunday that it had shot down 21 of 49 drones launched by Russian forces overnight.

It said the "Shahed" drones were particularly targeted at "the front line of defence, as well as at civilian, military and infrastructure facilities in the front-line territories." Six guided missiles had also targeted Kharkiv.

Twenty-eight people were wounded in an attack on Kharkiv, regional Gov. Oleh Syniehubov said on Sunday. A central hotel, apartment buildings, kindergarten, shops and administrative buildings sustained damage, according to the regional prosecutor's office.

Russia's Defence Ministry said that it had hit "decision-making centres and military facilities" in Kharkiv, reporting that its strike on the Kharkiv Palace Hotel had "destroyed representatives of the Main Intelligence Directorate and Ukrainian Armed Forces" involved in the "terrorist attack" in Belgorod.

Ukrainian Interior Minister Ihor Klymenko said that a British journalist was among the wounded, while German broadcaster ZDF said on Sunday that one of its television crews had been in the hotel. A Ukrainian translator was hit by debris and seriously wounded, with one of the team's security guards also sustaining injuries, ZDF said. "This is another attack by Russia on the free press," said *ZDF* editor-inchief Bettina Schausten.

In Kyiv, a Russian drone attack caused a fire to break out at a critical infrastructure facility, local officials said. They did not identify the facility further. Shelling in the centre of the Russian border city of Belgorod on Saturday killed 24 people, including three children. A further 108 people were wounded in the strike, regional governor Vyacheslav Gladkov said on Sunday, making it one of the deadliest attacks in Russia. Agencies
