

AERA warns airports against arbitrary charges on charters

AHMEDABAD: The Airports Economic Regulatory Authority (AERA) recently warned airport operators against imposing non-aeronautical charges in violation of provisions of the AERA Act 2008.

The warning notice was issued soon after Adani Group increased charges levied on

charter flights at Ahmedabad airport during the ongoing ICC World Cup. Sources said these arbitrary charges were levied at the Adani-run airports in Ahmedabad, Lucknow and Jaipur, under the heads of 'decongestion charges' and 'non-aero ancillary charge per passenger'.

The issue has been a grave

concern for charter users, operators and aggregators.

"It has been reported by stakeholders that some airport operators are levying charges for non-aeronautical services (Elite Meet and Greet Service), which are otherwise optional for charter/aircraft operators and making them a prerequisite for availing of aeronautical services. Making such non-aeronautical charges mandatory to avail of aeronautical services amounts to altering aeronautical charges, thus violating provisions of the AERA Act, 2008," the notification states. "It is hereby clarified that Section 2(a) of the AERA Act, 2008, explicitly defines aeronautical services and does not include any non-aeronautical service (viz. Elite Meet and Greet Service) as a mandatory prerequisite for aeronautical services (viz. operating the aircraft charter at the airport). Airport operator(s) resorting to such practices (mandating the availing of optional non-aeronautical services as a prerequisite for aeronautical services), if any, are in clear violation of the AERA Act, 2008," it adds. Sources privy to the developments said the airport operator has imposed a Rs 50,000 decongestion charge per charter in addition to a non-aero ancillary charge per passenger of Rs 17,857 plus 18% goods and services tax (GST). An email questionnaire sent to Adani Airports on Thursday went unanswered. "These charges increase the cost of travel by at least 40%.

Three is the magic number as Nissan accelerates the switch to full electric

Ahmedabad: Nissan is charging ahead with its vision for a zero emissions future, with confirmation that at least three models made at its UK plant will go 100% electric. Today's announcement means the EV36Zero hub in Sunderland, Nissan's blueprint for future manufacturing, will consist of three electric vehicles (EVs), three gigafactories and up to £3bn investment - great news for Nissan's 7,000 UK employees and the 30,000 jobs supported in the UK supply chain.

Not only does the transformational project include future all-electric versions of Nissan's flagship Qashqai and JUKE crossovers, but Nissan is also confirming today that the third vehicle planned for UK production will be next-generation Nissan LEAF, the car that dared to spark the electrification of the automotive industry. Both vehicle and battery manufacturing will be powered by the EV36Zero Microgrid, which will incorporate the wind and solar farms at Nissan and will have the capability to deliver 100% renewable electricity to Nissan and its neighbouring suppliers. Announcing the plans today to colleagues at the Sunderland plant, Nissan President and CEO Makoto Uchida said: "Exciting, electric vehicles are at the heart of our plans to achieve carbon neutrality. With electric versions of our core European models on the way, we are accelerating towards a new era for Nissan, for industry and for our customers. (22-2)

36k on special schools' merit list choose scholarships

Ahmedabad: Most of the Class 5 students who made it to the merit list for admission to the special schools - Raksha Shakti and Gyan Shakti schools - have chosen not to take admission to these residential schools but exercised the scholarship option instead.

The state education department had given students who made the merit list the option of a scholarship or admission to the special schools of their choice. In June the state examination board announced the results of the first common entrance test for the special schools. The board data shows that 52,317 of the 4.22 lakh Class 5 students who took the exam made it to the merit list. The applications of 2,738 students were rejected for various reasons and 49,757 students were asked to pick an option.

Sources said 36,093 students took the scholarship option while the remaining 11,660 will get admission to Raksha Shakti, Gyan Shakti and Gyan Shakti Tribal

residential schools.

Those who have not decided must make their choice in the next three days.

Several government and aided schools in Kolkata have decided to conduct special classes or online classes for senior students in preparation for selection tests after Kall Puja. While primary schools have reopened after Lakshmi Puja, secondary schools will reopen after Kall Puja. Schools are utilizing the vacation period to make up for academic losses due to the pandemic. Hindu School and Jodhpur Park Boys School are conducting extra classes and online classes, while other schools are using virtual methods to keep in touch with students and provide support.

A Class X student in Khurda district, Odisha, allegedly hanged himself after his principal confiscated his mobile phone. The 15-year-old was found using his phone in the hostel, and the principal took it away. The student remained upset and was later found hanging from a tree on the school campus. The police are investigating the incident, and the boy's parents will be questioned. Psychiatrists have pointed out the adverse effects of mobile phone addiction among children, leading to hyperactivity and aggression. Teachers of Sullia school came to the aid of students in Kodagu. A government school in Kodagu, India, which lacked science teachers, has found a solution by having two teachers from a neighboring district teach the students virtually. The Karrike Government High School, located in a remote village, was unable to find a science teacher willing to work in the hilly and forested region. The students are now being taught by English medium teachers from a private school in Kannada. The virtual classes are interactive and the students are enjoying the new learning experience. The founder of the private school is open to extending this virtual class facility to more government schools.

LG's Space-Saving WashTower

Ahmedabad: LG Electronics (LG) has unveiled its new WashTower™ Compact laundry solution. The new WashTower is a fully integrated two-in-one that combines a separate washer and dryer, all-in-one control panel and advanced AI in a single, space-efficient unit to deliver greater convenience. An ideal laundry solution for a one or two-member household, the WashTower brings better space-efficiency to the home. Compared to 2019 WashTower, its larger sibling, width and depth have been reduced by 100 and 170 millimeters, respectively, while its washer offers a

generous 13 kilogram capacity and its dryer, a 10 kilogram capacity. The product's 18% height - cut down by 235 millimeters - allows for more comfortable access to laundry in the dryer positioned on the appliance's upper half, easier filter management and the ability to install WashTower Compact in rooms with lower ceilings. Requiring less installation space than a stackable or side-by-side washer and dryer pair of the same laundry capacity, the relatively slim model frees up space in the kitchen or laundry room for other uses, such as the convenient storage of detergents, fabric softeners and linen.

MSDE Empowers Tomorrow's Healthcare Leaders

Ahmedabad, In the presence of the Hon'ble Secretary, Ministry of Skill Development and Entrepreneurship (MSDE), Government of India (GoI), Shri Atul Kumar Tiwari, over 80 candidates were presented with Healthcare Sector Skill Council certificates on 22nd November 2023, during the convocation ceremony of competent healthcare professionals in New Delhi.

This gentle and mild formulation will be your skin's new best friend as you adjust your skincare routine for this winter season. (19-10)

Sanjivani Paranteral and Hindustan Antibiotics collaborated to manufacture IV formulations and IV Sets

Ahmedabad: Sanjivani Paranteral Limited (BSE: 531569), a leading pharmaceutical company specialising in the manufacturing and distribution of high-quality parenteral and oral solid products, has inked a significant agreement with Hindustan Antibiotics Limited for the manufacturing of IV formulations and IV Sets. The agreement is backed by a confirmed purchase commitment from Hindustan Antibiotics Limited.

The partnership will see the establishment of a cutting-edge manufacturing facility within the premises of Hindustan Antibiotics Limited at Pimpri works, Pune, Maharashtra. Sanjivani Paranteral will soon initiate the process of upgrading facilities, the production is likely to start from Q3FY25. The plant capacity will be 50 lakh IV fluids bottles and 10 lakh IV

sets per month. This strategic move underlines both companies' commitment to meet the demand of IV formulations and IV sets. The total investment for the project would be Rs 50 Crores. "Our aim is to build a world-class organization grounded in Passion, Performance, and Partnership," said Mr. Ashwani Khemka, Chairman & Managing Director of Sanjivani Paranteral Ltd. "Our collaboration with Hindustan Antibiotics Limited not only reaffirms our commitment to innovation and healthcare quality but also aligns with our vision for advancing pharmaceutical manufacturing in India. We believe that by contributing to 'Make in India,' we can significantly impact the evolution of IV formulations and IV sets, ultimately benefiting patients and healthcare providers."

Career Opportunities & Income from gaming on the rise in India

Ahmedabad: The growth of the Indian gaming industry, benefiting the Indian gamers' community with diverse career opportunities and increased earnings, as per the HP India Gaming Landscape Study 2023. The study covering 3000 gamers across 15 Indian cities, highlighted that along with fun and relaxation, gamers are now drawn to gaming for earning money and recognition. The study for the first time covering 500 parents, also highlights a positive shift in parents' attitudes towards gaming in the last few years.

"As India emerges as one of the top three PC gaming countries globally, we are committed to empowering and enabling gamers through constant innovation and sports management in the last few years. The gaming industry in India is also helping gamers try their hands at various career options. Apart from being a gamer, the respondents indicated having eyes on being an influencer or esports management in the future. (22-2)

understanding of the gaming industry and provides colour on the passion and aspirations of the gaming community," said Ipsita Dasgupta, Senior Vice President & Managing Director, HP India market. The earnings from gaming are growing in India as compared to 2022, with nearly half of serious gamers respondents claiming to earn between 6 to 12 lakh per annum in 2023. Sponsorships and Esports tournaments have emerged as significant income sources, showcasing the growing importance of the gaming community. The gaming industry in India is also helping gamers try their hands at various career options. Apart from being a gamer, the respondents indicated having eyes on being an influencer or esports management in the future. (22-2)

The All-India Sainik Schools Entrance Exam (AISSE) for admission to Class VI and Class IX in the academic year 2024-25 will be held on January 21, 2024. Online registration and submission of application forms are open until December 16, 2023. Candidates must be between the ages of 10 and 12 for Class VI and between 13 and 15 for Class IX. Girls are also eligible for admission, subject to availability of vacancies.

Private equity (PE) firms are investing in schools in India, leading to changes in the education landscape. Reasons for schools switching to PE firms to buy into their operations include a lack of interest from the next

of having an extra-marital affair. She also alleged that she was being tortured by him as he wanted to marry his paramour. Police have booked the in-laws of a 24-year-old woman, who ended her life by consuming poison on November 3, for abetment of suicide. In her complaint, she alleged that her daughter was being tortured over dowry ever since she got married five years back.

Peon arrested for liquor trafficking

Rajkot: A 52-year-old peon with the Mausam Bhavan in Bhuj was arrested with 51 bottles of Indian Made Foreign Liquor (IMFL). Acting on specific information, Bhuj City-A division police stopped Rajesh Joshi's vehicle for checking and found three liquor bottles on Sunday. He revealed that he had hidden other bottles in the washroom of the building.

NTPC Renewable Energy starts commercial operation from its maiden project in Gujarat

Ahmedabad : NTPC Renewable Energy, a wholly owned subsidiary of NTPC, has declared the commercial operation of its first project -- the 50 MW wind project at Dayapur in Kutch, Gujarat.

With this commercial operation, which started Saturday, the total installed capacity of the NTPC Group has become 73,874 MW and the total renewable energy (RE) operational capacity now

stands at 3,364 MW.

Dayapur is the first project of NTPC Renewable Energy Limited. NTPC REL was incorporated as a wholly-owned subsidiary of NTPC on October 7, 2020, to accelerate the addition of renewable energy capacity to NTPC.

Apart from Dayapur, there are 15 other renewable energy projects under different stages of execution, totalling a capacity of 6,210

MW. Also, when fully commissioned, the Dayapur wind complex will add 450 MW to NTPC's existing wind portfolio of 100 MW.

In addition to solar and wind capacity, NTPC is also investing in green hydrogen technologies. Based on green hydrogen storage and microgrid principle, it is setting up a large capacity in Ladakh.

NTPC Green Energy Ltd (NGEL), another wholly-owned subsidiary of NTPC, has commissioned a renewable energy capacity of 2,711 MW and is setting up two solar projects -- a 40 MW solar project at Ayodhya in Uttar Pradesh and a hydrogen hub at Pudumadaka in Andhra Pradesh.

As part of its long-term growth plan and sustainability, NTPC targets to have 60 GW of renewable energy capacity by 2032.

Schools told to rectify fee applications

AHMEDABAD: Affidavits and proposals for setting of fees presented to the fee regulatory committee (FRC) by certain schools were found to be incomplete or containing false information. The district education officer (DEO) has written to such schools asking them to rectify their affidavits and applications by November 25. The DEO said schools must ensure that their applications are supported by proper annexures as stated in the guidelines issued. The committee is to decide fee structures for the 2024-25 year and schools were told to submit their applications by October 23.

The DEO said schools must ensure that their applications are supported by proper annexures as stated in the guidelines issued. The committee is to decide fee structures for the 2024-25 year and schools were told to submit their applications by October 23.

about the impact on faculty and students. SRM Institute of Science and Technology (SRMIST) has commenced the online application process for the SRM JEEEE 2024 entrance exam for B.Tech and M.Tech (integrated) programs. The exam will be conducted in two phases in April and June using remote proctored online mode. Successful candidates will be eligible for scholarships. The DEO said schools must ensure that their applications are supported by proper annexures as stated in the guidelines issued. The committee is to decide fee structures for the 2024-25 year and schools were told to submit their applications by October 23.
